SONU KUMAR

JOB TITLE HERE

PROFILE

I am Sonu Kumar, a final-year student. My heart lies in software engineering, and I have valuable experience working part-time for a US-based robotics company, where I contributed to developing a Flutter indoor tracking mobile app for iOS. I thoroughly enjoy coding, creating new things, and engaging in projects. My interests also extend to image processing with Python, PyTorch, and machine learning. I am excited to apply and expand my skills as I seek the perfect placement opportunity
